Software developer passionate about Swift development and also engineer (robotics/computer science - Poznan University of Technology). I know several programming languages, of which Swift is my main one. My goal is to gain experience and be a better engineer every day. I am conscientious, willing to constantly develop.

Skills

Primary technologies: Swift, UIKit, SwiftUI, Python, Git

Secondary technologies: Linux, C/C++

Strengths: team work, responsibility, thinking out of the box

Communication: Polish (native), English (fluent), German (basic)

Coding Projects

Calculator App

This project is a clone of the original iOS calculator app. Besides functionality as the original app, UI was written completely by using code.

NBP currency app

Project based on NBP API to check prices of different currencies and also display selected ranges of dates to find how price has changed.

Rock Paper Scissors

This project is an iOS version of the Paper-Rock-Scissors game. To make the game playable I have implemented a multiplayer like connection between 2 players.
